Course Description
How do we know what we know about the social and legal world?
In this course, we will tackle this question together by examining how socio-legal scholars observe, analyze, and create knowledge about various social and legal institutions and phenomenon. We will introduce you to qualitative and quantitative research methods commonly used by socio-legal scholars, and will invite you to think critically about how different methods lead to different kinds of knowledge production. We will pay special attention to how research methods have historically privileged some groups, while excluding, marginalizing, and disparaging others, and how methods today may be used to both challenge and reproduce inequalities. The University requires that in order to take this course, you must have taken LWSO 201.

Course Objectives/Learning Outcomes
This course is designed to provide you with as much hands-on experience with research methods commonly used by socio-legal scholars. In this course, we will be:
(1) learning about and practicing qualitative and quantitative methods,
(2) exploring how science is produced and what ideas or conditions influence science,
(3) critically thinking about existing scientific research methods,
(4) practicing research and writing methods including legal research basics, and legal analysis,
(5) developing practical skills of research design,
(6) critically appraising existing research,
(7) focusing on ethics of research, critical epistemologies and methodologies in this course.

Grade Reappraisal

Within one week of the date the exam/assignment is returned, students seeking reappraisal of examinations or assignments must submit a written response to me explaining the basis for reconsideration of one’s mark. I will reconsider the grade assigned and will then book a time with the student to discuss his or her work and rationale. It should be noted that a re-assessed grade may be raised, lowered, or remain the same.

Technology Use

Please be respectful to those around you when using technology. To minimize disruption in the classroom, laptops are permitted in the classroom BUT ONLY to take notes and to connect with class materials. (Permission to use LAPTOPS AND CELL PHONES may be withdrawn if they are used for anything else other than class purposes).
