Course Description

Why do members of society behave the way they do? Are we simply creatures of rational choice? Do our biological and psychological compositions largely dictate our actions? How does society affect our behaviour? What is sociology and how does it aid us in explaining human behaviour? We will explore these questions through lecture material and discussions. As I expect students to be active producers rather than passive consumers of ideas, there will be time to analyze and discuss these issues. Upon successful completion of Introduction to Sociology, students will be able to think

critically about social issues and events, demonstrate familiarity with key concepts in the discipline, and display a practical ability to apply major theoretical perspectives to social processes.

Course Objectives/Learning Outcomes

Students in Introduction to Sociology should concentrate on how to:

1. Outline the five general sociological perspectives (functionalism, conflict theory, symbolic interactionism, feminisms, and post-structuralism), and apply them to social interactions and structures.
2. Differentiate between micro-level, macro-level, and global-level sociological approaches.
3. Explain the epistemological bases of different types of sociological knowledge and the basic methods used to generate knowledge.
4. Outline the most prominent explanations on how socialization and culture form our social selves.
5. Explain how social stratification, “race” and ethnicity, and sex and gender affect social opportunities.
6. Differentiate how the classic sociological thinkers approached religion in society.
7. Briefly outline the main sociological explanations influencing involvement in crime and deviance.
8. Identify the main ways in which urbanization, population, and the environment are changing our social world.
9. Assess the possibilities for inducing positive social change.

Methods of Assessment and Grading Weights

There are three opportunities for students to capture their grades. Students will be expected to complete multiple choice and true-false examinations. They will be based on all readings and lectures. Mid-term examinations will take place in the lecture theatre on the following dates:

Date	Percentage of Overall Grade
February 9	30
March 9	30
TBA by Registrar	40

IMPORTANT CHANGE FOR WINTER 2022

The first mid-term examination will be available on D2L at the beginning of class on February 9th at 2:00pm and will be available for 24 hours. When you access the assessment, you will have the length of the class [i.e. 60 minutes] to complete and submit it. This assessment will consist of multiple choice and true-false questions. If you experience an issue that affects your ability to complete the assessment, which can include (but is not limited to) issues with technology, caregiving responsibilities, or distractions within your test-taking environment, you will need to contact your instructor as soon as possible to arrange an alternate or (in the case of technical issues) extended time to write the assessment.

IMPORTANT CHANGE FOR WINTER 2022

The second mid-term examination will be available on D2L at the beginning of class on March 9th at 2:00pm and will be available for 24 hours. When you access the assessment, you will have the length of the class [i.e. 60 minutes] to complete and submit it. This assessment will consist of multiple choice and true-false questions. If you experience an issue that affects your ability to complete the assessment, which can include (but is not limited to) issues with technology, caregiving responsibilities, or distractions within your test-taking environment, you will need to contact your instructor as soon as possible to arrange an alternate or (in the case of technical issues) extended time to write the assessment. **Students can still choose to write the in-person examination in the lecture theatre during class time.**

Final Exam Information

The final examination will be schedule by the Registrar's Office. As with all examinations in this class, students will complete the final examination without the use of textbooks, course notes, or any electronic devices. That is, students will only use pencils to complete the examinations.

Grading Scale

Letter grades will be assigned and submitted to the registrar based on the following scale:

Passing Grades

As per the table above, students must earn 50% or more overall in this class to pass.

Grade Reappraisal

Within two weeks of the date the exam/assignment is returned, students seeking reappraisal of examinations or assignments must submit a written response to the instructor explaining the basis for reconsideration of one's mark. The instructor will reconsider the grade assigned and will then book a time with the student to discuss their work and rationale. It should be noted that a re-assessed grade may be raised, lowered, or remain the same.

Technology Use

Please be considerate of others when using technology in the classroom.

1. The main Sociology Department office does not deal with any course-related matters. Please speak directly to your instructor.
2. **Protection of Privacy:** The Freedom of Information and Protection of Privacy (FOIPP) legislation does not allow students to retrieve any course material from public places.
