Course Description

Cities are complicated matters. It is not always clear how we should go about studying them, or even how we should define what a city is. Often the complexity of cities makes it difficult to understand and address the major social problems that face city dwellers across Canada and the world. These problems include inequality and segregation, homelessness, crime, alienation and the decline of community.

To help sift through the complexity of urban life, sociologists have developed several research perspectives that provide working definitions for cities and “toolkits” of theories and methods for studying the city. In this course you will be learning a variety of these perspectives including human ecology, interactionism, and political-economy. Each of these perspectives is based on a slightly different idea of what a city is and what is important about urban life.

The course is roughly divided into three units. The first unit will address the rise of modern cities and their impact on the way people relate to each other and form communities. The second unit will focus on the role of power and inequality within cities, including a focus on economic inequality, race and ethnicity, and housing. The final unit will focus on different dimensions of life within the modern city, including culture and consumption, behavior in public spaces, and crime.

Goals and Learning Outcomes

- Understand major theoretical approaches to studying cities, including their strengths and weaknesses, and the types of research questions that are associated with them.
- Learn about the state of Canadian cities in the 21st century with regard to several important social issues, including the economy, inequality, race and ethnicity, crime, and more.
• Develop the ability to critically read and assess original sociological publications.
• Learn to construct a sociological argument in written form.

Textbooks and Other Materials

Readings are assigned from two sources:

• Online articles can be accessed either through the links provided in the syllabus, or via http://library.ucalgary.ca.

Unit Tests

The unit tests will evaluate your knowledge of the lecture and reading material from each of the three units and will be written during regular lecture hours. The tests will not be cumulative, but will cover all of the material from each of the respective units. All three tests will be in multiple choice format. Because your final paper is due during unit #3, this unit will cover less material. As a result, unit test #3 will be worth less than the other two tests.

Reading Responses

As part of your grade, you are required to submit a reading response for one online article in each of the three units (three articles total). Therefore, for unit #1 you have the option of responding to Orum, Simmel, or Klinenberg. For unit #2 you will choose between Delaney and Eckstein, Sassen, or Hulchanski. For unit #3 you will respond to Zukin, since that is the only assigned article.

Reading responses can be submitted via D2L at any time **BEFORE the test at the end of each unit.** No extensions will be granted.
Responses should be between 300 to 500 words in length. In your response you should (1) briefly summarize the main argument of the reading, (2) identify the significance of the reading to urban sociology, and (3) provide some critical assessment that highlights problems or limitations with the argument or identifies new questions that are raised by the reading. Proper citation form is also expected. Any text or ideas taken from the reading or any other source must be distinguished with quotation marks and/or page numbers.

Reading responses are graded on a pass/fail basis. Credit will only be awarded to those responses that are submitted before the due date and that meet the basic requirements outlined above.

Finally, keep in mind that all of the online articles will be covered in the unit tests. Therefore, while you will only write a response for one article per unit, you are expected to read all of the assigned articles.

Term Paper

The paper assignment will provide you with an opportunity to draw on course material to produce an original sociological argument and analysis. A list of questions will be provided on D2L. You will be asked to respond to one of these questions in the form of an argumentative essay. More information on this assignment, including the list of questions will be provided later in the term.

Grade Reappraisal

Within one week of the date that the paper is returned, students seeking reappraisal of tests or assignments must submit a written response to the instructor explaining the basis for reconsideration of the grade. The instructor will reconsider the grade assigned and will then book a time with the student to discuss his or her work and rationale. It should be noted that a re-assessed grade may be raised, lowered, or remain the same. The re-assessed grade will be final and cannot be changed again.

Late Papers

Term papers that are handed in after the due date (Tuesday, Apr 11th) without a valid reason (see above under Deferrals) will still be accepted, but a late penalty of -5% per day (including weekends) will be imposed.

Contact and Office Hours

Please include “SOC353” in the subject of your e-mails. I aim to respond to e-mails within 24 hours during the working week. To ensure a quick response, it is best to keep e-mails simple and straight to the point. More complicated questions should be asked in person during office hours. I also encourage you to ask questions during or right after lectures.

Other Important Information

Handing in Papers, Assignments

1. The main Sociology Department office does not deal with any course-related matters. Please speak directly to your instructor.

2. **Protection of Privacy:** The Freedom of Information and Protection of Privacy (FOIPP) legislation does not allow students to retrieve any course material from public places. Anything that requires handing back will be returned directly during class or office hours. If students are unable to pick up their assignments from the instructor, they provide the instructor with a stamped, self-addressed envelope to be used for the return of the assignment.

3. Final grades are not posted by the Sociology Department. They are only available online.

Deferrals

When possible, please provide advance notice if you are unable to write a test or complete/turn-in assignments on time. All requests for deferral of a course component due to health reasons must be accompanied by written documentation as outlined in the University Calendar and should be obtained while the student has the health issue rather than after recovery. Deferrals will be allowed in the following circumstances: illness, domestic affliction or religious conviction. Travel arrangements, misreading the syllabus, and scheduling conflicts with other classes or employment are not valid reasons for requesting a deferral. Deferrals will not be granted if it is determined that just cause is not shown by the student.

If you have missed a test for a legitimate reason, the instructor can require you to write a “make up” test as close in time to the original test as possible or can choose to transfer the percentage weight to another course component. If the instructor schedules a “make up” test for you, its date and location will be at the convenience of the Department of Sociology.

**Deferred Term Work Form:** Deferral of term work past the end of a term also requires a form to be filled out. It’s available at [https://www.ucalgary.ca/registrar/files/registrar/deferred_termwork15_0.pdf](https://www.ucalgary.ca/registrar/files/registrar/deferred_termwork15_0.pdf)

Once an extension date has been agreed between instructor and student, the form should be taken to the Faculty of Arts Program Information Centre (SS 110) for approval by an Associate Dean (Students).

**Deferred Final Exam Form:** Please note that requests to defer a Registrar scheduled final exam are dealt with through the Registrar’s Office. Further information about deadlines, and where paperwork should be taken, is available on the form, which can be found at: [https://www.ucalgary.ca/registrar/student-forms](https://www.ucalgary.ca/registrar/student-forms)
Ethics Research

Students are advised that any research with human subjects – including any interviewing (even with friends and family), opinion polling, or unobtrusive observation – must have the approval of the Faculty Ethics Committee. In completing course requirements, students must not undertake any human subjects research without discussing their plans with the instructor, to determine if ethics approval is required.

Academic Misconduct

Please refer to the website listed below for information on University of Calgary policies on Plagiarism/Cheating/Other Academic Misconduct:
